CONTENTS Volume 79 2004

Volume 79 No. 1 October 2004

Review of Plant Biotechnology and Applied Genetics

Ornamental chrysanthemums: improvement by biotechnology
J.A. Teixeira da Silva **1–18**

Regular articles

Somatic embryogenesis in *Centella asiatica* L. an important medicinal and neutraceutical plant of India
Ch. Paramageetham, G. Prasad Babu, J.V.S. Rao **19–24**

Variation in anther culture response and fertility of backcrossed hybrids between indica and japonica rice (*Oryza sativa*)
S.Y. Lee, H.S. Kim, T.O. Kwon **25–30**

Factors affecting the *Agrobacterium*-mediated transient transformation of the wetland monocot, *Typha latifolia*
R. Nandakumar, L. Chen, S.M.D. Rogers **31–38**

Effect of combined changes in culture medium and incubation conditions on the regeneration from immature embryos of elite varieties of winter wheat
C. Tamás, P. Szűcs, M. Rakszegi, L. Tamás, Z. Bedő **39–44**

Exogenous carbohydrate utilisation by explants of *Brassica napus* cultured *in vitro*
H. Ślesak, A. Skoczowski, L. Przywara **45–51**

***SERK* gene homolog expression, polyamines and amino acids associated with somatic embryogenic competence of *Ocotea catharinensis* Mez. (Lauraceae)**
C. Santa-Catarina, L.R. Hanai, M.C. Dornelas, A.M. Viana, E.I.S. Floh **53–61**

Effects of organic solvents on membrane of *Taxus cuspidata* cells in two-liquid-phase cultures
Q.-M. Xu, J.-S. Cheng, Z.-q. Ge, Y.-J. Yuan **63–69**

Effects of antibiotics on the elimination of *Agrobacterium tumefaciens* from loblolly pine (*Pinus taeda*) zygotic embryo explants and on transgenic plant regeneration
W. Tang, H. Luo, R.J. Newton **71–81**

Research notes

Induced activity of superoxide dismutase and peroxidase of *in vitro* plants by low concentrations of ethanol
X.-Q. Li, S.-H. Li, D.-F. Chen, F.-R. Meng **83–86**

Age and physiological condition of donor plants affect *in vitro* morphogenesis in leaf explants of *Passiflora edulis* f. *flavicarpa*
D.C. Becerra, A.P. Forero, G.A. Góngora **87–90**

Micropropagation of *Achillea filipendulina* cv. 'Parker'
D. Evenor, M. Reuveni **91–93**

High frequency plant regeneration from *Astragalus melilotoides* hypocotyl and stem explants via somatic embryogenesis and organogenesis
S.-W. Hou, J.-F. Jia **95–100**

Induction of somatic embryogenesis and plant regeneration of 'Ataulfo' mango (*Mangifera indica*)
M. Rivera-Domínguez, M.A. Manzanilla-Ramírez, M. Robles-González, M.A. Gómez-Lim **101–104**

Effects of auxins and 2,3,5-triiodobenzoic acid on somatic embryo initiation from Norway spruce zygotic embryos (*Picea abies*)
A.V. Ramarosandratana, J. Van Staden **105–107**

RT-PCR amplification of mRNAs in nuclei or cytosol of single cells of tomato callus after micropipette extraction
M. Wada, Y. Matsuda, K. Fujita, A. Nanjo, M. Nishimura, T. Nonomura, K. Kakutani, H. Toyoda **109–114**

Somatic embryogenesis and plantlet regeneration in semul (*Bombax ceiba*)
M. Vyas, Y.K. Bansal **115–118**

Book Reviews **119**

Erratum **121**

Volume 79 No. 2 November 2004

Special Issue: Recent Advances in Plant Biotechnology

Guest Editors: Anna Pretova, Slavek Rakovsky & Steve Millam

5th International Symposium in the Series: Recent Advances in Plant Biotechnology
A. Gajdosova **123**

Recent developments in the use of transgenic plants for the production of human therapeutics and biopharmaceuticals
N.P. Teli, M.P. Timko **125–145**

Transient expression of heterologous model gene in plants using *Potato virus X*-based vector
N. Čeřovská, T. Pečenková, T. Moravec, J. Velemínský **147–152**

Conditions of transformation and regeneration of 'Induka' and 'Elista' strawberry plants
A. Gruchała, M. Korbin, E. Żurawicz **153–160**

Expression of a cucumber class III chitinase and *Nicotiana plumbaginifolia* class I glucanase genes in transgenic potato plants
J. Moravčíková, I. Matušíková, J. Libantová, M. Bauer, L. Mlynárová **161–168**

High content of endogenous cytokinins stimulates activity of enzymes and proteins involved in stress response in *Nicotiana tabacum*
H. Synková, Š. Semorádová, L. Burketová **169–179**

Loss of AtPIN1 does not influence the *in vitro* morphogenic potential of *Arabidopsis thaliana* suspension cultures
T. Eneva, O. Tietz, E. Luley, K. Palme **181–188**

Comparison of suitability of RAPD and ISSR techniques for determination of strawberry (*Fragaria* × *ananassa* Duch.) relationship
A. Kuras, M. Korbin, E. Żurawicz **189–193**

Esterases as a marker for growth of BY-2 tobacco cells and early somatic embryos of the Norway spruce
J. Víteček, V. Adam, J. Petřek, J. Vacek, R. Kizek, L. Havel 195–201

***In vitro* system for studying the interaction between *Erwinia amylovora* and genotypes of pear**
H. Abdollahi, E. Rugini, M. Ruzzi, R. Muleo 203–212

Effects of auxins on *Karwinskia humboldtiana* root cultures
K. Kollárová, D. Lišková, D. Kákoniová, A. Lux 213–221

Influence of plant growth regulators, carbon sources and iron on the cyclic secondary somatic embryogenesis and plant regeneration of transgenic cherry rootstock 'Colt' (*Prunus avium* × *P. pseudocerasus*)
P. Gutièrrez Pesce, E. Rugini 223–232

Flax anther culture: effect of genotype, cold treatment and media
B. Obert, B. Dedičová, A. Hricová, J. Šamaj, A. Pret'ová 233–238

Approaches on vegetative propagation of difficult-to-root *Salix caprea*
M. Liesebach, G. Naujoks 239–247

Micropropagation of tree peony (*Paeonia suffruticosa*)
M. Beruto, L. Lanteri, C. Portogallo 249–255

Volume 79 No. 3 December 2004

Review of Plant Biotechnology and Applied Genetics

Distribution of genes and recombination in wheat and other eukaryotes
D. Sidhu, K.S. Gill 257–270

Regular articles

Transformation of alfalfa with a bacterial fusion gene, *Mannheimia haemolytica* A1 *leukotoxin50-gfp*: Response with *Agrobacterium tumefaciens* strains LBA4404 and C58
A. Ziauddin, R.W.H. Lee, R. Lo, P. Shewen, J. Strommer 271–278

Effect of abscisic acid and cytokinins on cultured zygotic embryos of *Coffea arabica* cv.Cauvery (Catimor)
M.M. Naidu, C.S. Sreenivasan 279–284

Response to increasing rates of boron and NaCl on shoot proliferation and chemical composition of *in vitro* kiwifruit shoot cultures
T.E. Sotiropoulos, K.N. Dimassi 285–289

The survival mechanism of dune reed (*Phragmites communis*) cultures under high sodium chloride concentration
L.Q. Zhao, S.X. Cui, L.X. Zhang, C.L. Zhang 291–298

An interspecific somatic hybrid between *Actinidia chinensis* and *Actinidia kolomikta* and its chilling tolerance
Z.-a. Xiao, L.-c. Wan, B.-w. Han 299–306

Haploid plant regeneration via embryogenesis from anther cultures of *Hepatica nobilis*
T. Nomizu, Y. Niimi, D.-S. Han 307–313

TIBA affects the induction of direct somatic embryogenesis from leaf explants of *Oncidium*
J.-T. Chen, W.-C. Chang **315–320**

Preliminary examination of factors affecting *Agrobacterium tumefaciens-mediated* transformation of marula, *Sclerocarya birrea* subsp. *caffra* (Anacardiaceae)
M.H.N. Mollel, E.M.A. Goyvaerts **321–328**

Plant regeneration via somatic embryogenesis in Styrian pumpkin: cytological and biochemical investigations
A. Urbanek, B. Zechmann, M. Müller **329–340**

Research Note

Indirect somatic embryogenesis and plant regeneration from leaf and internode explants of *Paulownia elongata*
Z. Ipekci, N. Gozukirmizi **341–345**

Instructions for Authors **347–350**

Author Index **351**
